Profile

Software Engineer focused on full-stack web development with hands-on experience building and deploying real-world applications using the MERN stack. Experienced in developing REST APIs, JWT-based authentication, real-time features, database-driven applications, and performance-optimized web interfaces. Strong foundation in software engineering, backend architecture, system design, and web technologies.

Education

PSN College of Engineering and Technology

Bachelor of Engineering in Computer Science and Engineering

Sep 2023 – May 2027

Tirunelveli, Tamilnadu

Experience

Tetron Infotech

Full Stack Developer Intern

April 2025 – May 2025

Sivagangai, Tamil Nadu

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Build REST APIs, implemented authentication and authorization workflows, and integrated frontend applications with backend services.

Projects

DevSolve | *MERN Stack, JWT, Socket.IO, TanStack Query*

2026

- Built a full-stack community platform for developers to post problems, share solutions, vote, bookmark content, and accept solutions using React, Node.js, Express.js, and MongoDB.
- Implemented secure JWT authentication with access and refresh tokens, protected APIs, real-time notifications, pagination, search, filtering, and optimized database interactions.
- Achieved Lighthouse performance scores of up to 98 through frontend optimization, efficient rendering, reduced JavaScript execution, and optimized assets.

Raj Surgical | *React, Tailwind CSS, JavaScript, Vercel*

2026

- Developed a production-ready frontend for a surgical products business, focusing on responsive design, reusable components, intuitive navigation, and scalable UI architecture.
- Built product-focused interfaces with responsive layouts and optimized user flows to support large product catalogs and a smooth browsing experience across devices.
- Applied frontend performance and SEO best practices, including optimized assets, semantic structure, responsive images, and efficient rendering for improved user experience.

Technical Skills

- **Languages:** JavaScript (ES6+), HTML5, CSS3, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, TanStack Query, Responsive UI, Web Performance Optimization
- **Backend:** Node.js, Express.js, REST API Development, JWT Authentication, Role-Based Access Control, API Security, Rate Limiting
- **Databases:** MongoDB, Mongoose, Database Schema Design, Query Optimization
- **Real-Time & Integrations:** Socket.IO, Firebase, SMTP, MSG91, Cloudinary
- **Tools & Deployment:** Git, GitHub, Postman, VS Code, Docker, Vercel, Render, Linux, Hostinger VPS
- **Engineering:** System Design, Networking Fundamentals, Authentication & Authorization, Software Testing, Performance Optimization
